

# Amirreza Jafari

## Senior TALL Stack Developer & Software Architect

Muscat, Oman | [ajaura.dev@gmail.com](mailto:ajaura.dev@gmail.com) ~ [Github](#) ~ [Linkedin](#) ~ [Website](#)

---

### Professional Summary

Systems built to last. Over 5 years of experience architecting and developing enterprise-scale web applications, including National Banking Systems (Fintech) and Government Infrastructure. Expert in TALL Stack (Tailwind, Alpine, Laravel, Livewire), AI-driven development, and DevOps. Proven track record of acting as a Solo Lead Developer to deliver high-traffic, secure, and scalable platforms from concept to production.

### Technical Skills

- **Backend & Architecture:** PHP 8+, Laravel, Microservices, REST APIs, System Architecture, WebSocket
- **TALL Stack & Frontend:** Tailwind CSS, Alpine.js, Laravel Livewire, JavaScript, AJAX
- **Database & Performance:** MySQL (Query Optimization, Indexing), Redis (Caching Strategies)
- **DevOps & Infrastructure:** Linux, Docker, CI/CD, Zabbix, Git
- **Modern Tech & Automation:** AI-Assisted Development, n8n Automation, Workflow Orchestration

### Professional Experience

**Software Architect & Sole Lead Developer** | [Shabake Gostar Kayer](#) (Nov 2024 – Present)

- Acted as the **Sole Lead Developer**, taking full end-to-end ownership of backend architecture, debugging, and deployment for national-level B2G/B2B projects.
- Architected and developed critical infrastructure for **National Banks (Sadad Informatic Corporation/Bank Melli, Bank Saderat)**, ensuring high security, zero-downtime deployments, and strict data integrity.
- Redesigned and optimized [tehran-ix.ir](#) (National Infrastructure), improving application performance by 60%+ through service-layer refactoring and advanced MySQL/Redis query optimization.

**Independent Software Architect & Full-Stack Developer** | Freelance (2023 – Present)

- **E-commerce Discount Platform:** Architected and developed a high-performance platform (similar to Groupon) from scratch using the **TALL stack**. Handled database schema, payment gateways, and a custom admin panel.
- **High-Traffic Celebrity Portal:** Developed a scalable official website for a trending national artist. Implemented Redis caching and server-side optimizations to handle massive sudden traffic spikes during social media campaigns.

**Full-Stack Developer** | [Adib IT](#) (Jun 2023 – Apr 2024)

- Architected 3+ production systems using modular Laravel backends, reducing code duplication by 40%.
- Implemented secure API designs (rate limiting, XSS/CSRF protection) and mentored junior developers on architectural best practices.

### Education

- **2025 – Present** | Islamic Azad University, **B.Sc.** in Information Technology Engineering
- **2023 – 2025** | Islamic Azad University, **Associate Degree** in Computer Engineering

### Availability & Work Arrangements

- **Contract • Freelance • Permanent positions**
- On-site ( Muscat ) • Hybrid arrangements • Remote capability
- Experienced with distributed teams and asynchronous communication
- Timezone coverage: GMT+4 ( Oman )
